

YOU HAVE RIGHTS!

MyChart and Proxy Access for Teens Ages 12-17

- » You can see doctors for adult type services. See the chart below to see what those services are.
- » Unless you have been emancipated, if you are under 18, your parent or guardian has a right to see your medical information.
 - **If you receive adult services, your doctor can keep this information private (even from your parents) so that you can safely see your doctor to receive these services.**
- » You can look at your medical records on your phone or on your computer.
