

Dear Applicant,

This application is for visiting medical students and residents wanting to shadow a physician staff member in a Carilion facility. Success in arranging this visit depends largely on how carefully you read and follow the directions.

During the visit, students may not participate in patient care by touching patients, interacting with patients, or assisting in procedures even with preceptor approval and encouragement. This is not an opportunity to be precepted: you may not ask questions or interject comments unless the preceptor asks you directly.

All arrangements must be coordinated with Carilion's Visiting Student Affairs Office as described here and on the application even if your school or a Carilion staff member consented to the visit. Only after receiving a confirmation email from VSA should you make plans to come.

Key factors to consider before applying

- Maximum time: During a given academic year, students may shadow 3 times in the clinical area of interest for 4-8 hours each time. Dates do not have to be consecutive.
- Placement is not guaranteed but depends on space limitations and your successfully completing the application in time as described below.
- Missed Opportunities: Shadow visits will not be rescheduled.
- Taking call: You may not take call through the hospital's call system.
- Housing is not provided.

Process

In order to apply, complete the application on-line, if possible, following the directions here and on the application. We cannot process incomplete applications, faxed or scanned applications, those missing information or documentation, or those arriving fewer than 30 or 15 days in advance as described below.

Complete all areas of the application and insure all required documentation that you must provide is attached.

- **If a Carilion staff member already agreed to let you shadow**, choose the first option on the application and follow those directions. Return the completed application packet to so that it arrives at Visiting Student Affairs at least 15 days prior to the first date listed on the application. **No exceptions.**
- **If you want Visiting Student Affairs to find a staff member you may shadow**, choose the second option and follow those directions. Return the completed application packet to so that it arrives at Visiting Student Affairs at least 30 days prior to the first date listed on the application. **No exceptions.**

When received, applications are reviewed for completion. Completed applications are processed, but incomplete applications are filed in an unattended drawer. Do not make plans to come until you receive an email with "Confirmation" in the subject line.

Please save this cover letter for future reference and remember that the more thorough you are in completing the application, the more quickly we can arrange the visit.
