About Carilion Giles Community Hospital

Carilion Giles Community Hospital (CGCH) is a modern healthcare facility of dedicated professionals bringing quality health care to this beautiful, mountainous region. A 25-bed critical access hospital, CGCH is organized to help the patient quickly navigate among services. As you enter the beautiful lobby, you'll marvel at a 100 ft. mural painted by nationally known, local artist Robert Tuckwiller. It highlights all the natural wonders and beauty of the Giles area. The main entrance serves as the access point for all walk-in patients needing emergency care, diagnostics, rehabilitation and other outpatient services. The Emergency Department has been nationally recognized for quality and patient satisfaction and the health care teams in all inpatient and outpatient areas are complimented for the heartfelt care they give patients. Carilion Clinic general surgery and orthopaedics physicians are on staff, as are specialty physicians for cardiology and gastroenterology. The hospital's Garden Cafe has indoor and outdoor dining for employees and visitors. CGCH is an avid community partner and dedicated to helping you on your wellness journey.
